Endpoint Security Health	70%	1,008	\$79,962
Network Security Health	86%	1,238	\$98,238
Compliance & Audit Readiness	80%	1,728	\$137,077
Total		6,854	\$543,738

How This Estimate Was Calculated

Your assessment combines the information you provided about your security team with observed time reductions from Reach customers using Reach across common security operations activities. Customer benchmarks are expressed as time savings per employee, per month. When you supplied your own current effort, the model applied the observed percentage reduction to your input instead of the benchmark workload. Annual cost savings value uses base salary only and does not include benefits, taxes, overhead, or other employment costs. This assessment provides an estimate of potential operating benefit and is not a guarantee of future results. Actual results may vary based on your environment, team, workflows, and deployment.
